BIO:

Colin McAuliffe's career began in 2002 when he landed his first job, shooting "Odyssey" a travel show that took him to 30 countries in a year. After a brief stint working in his native New York on several cable travel shows, Colin made his way to San Francisco and started 01 Productions.

Colin puts his own creative spin on all 01 Productions' projects. He personally oversees everything that we do, from crew selection to the color choice on a lower-third graphic.
