

## MediaOne Services

### Fact Sheet

MediaOne Services has been the leading independent broadcast origination center in Northern California since 1987. MediaOne provides services to video content producers, aggregators and distributors. Services include network origination, studio production, signal acquisition, and transmission via fiber, satellite or IP. Clients include ABC, NBC, Bloomberg, Fox News ESPN, webcasters like Accela and Onstream, broadband video aggregators such as MediaZone and IGN Entertainment, PR agencies such as On The Scene and Medialink, and corporations like Hewlett-Packard and the New York Stock Exchange.

### PRODUCTION STUDIOS

MediaOne has four studios and full production services conveniently located in downtown San Francisco. We have two multi-camera studios. Studio 3 is 35x35 and Studio 4 is 35x25, both 14' floor to grid. They have full production capability for both live and taped productions. Both studios have their own dedicated control rooms, lobbies, green rooms and conference rooms.

Studios 1 and 2, our insert studios, are the choice in the Bay Area for remote interviews with Good Morning America, Chris Matthews, Larry King, Jim Lehrer and the Today Show. These studios can accommodate live talking head shots for up to three people and also small insert stage productions.
