

KATHLEEN MESSMER

Script Supervisor

IATSE 871 & 480

The opportunity of working on many different types of productions nationwide has developed my eye. My skills include oversight management, pre- and post-production, stage management, set safety, excellent communications, problem solving and collaboration. I believe I have benefitted from working on a wide variety of projects encompassing multiple styles and budgets. My close collaboration with both directors and cast on these projects has made me a first choice for producers and directors. I seek challenging projects that broaden ones view on our world and society. I carry a current US passport and am available for work worldwide.
